

Rapport på skiløype-preparering for Skeikampen Pluss BA

Rapporten bruker historiske data av preparerte skiløyper.

Preparering blir godkjent når:

- Et beregnet antall punkter (3-5) på løypa må være godkjent i en hale etter tråkkemaskinen.
- Hastigheten på tråkkemaskinen må være mellom 0.1 til 200.0 km/t*.
- GPS punkt fra tråkkemaskinen må være innenfor en radius på 25m*. Det er derfor viktig at skiløypene på Skisporet.no stemmer med de faktiske skiløyper i terrenget.

* Standard verdi, konfigurierbar.-->

Fra: 01.10.2020 00:00 **til:** 11.05.2021 00:00
